Subject: Microsoft Settlement

I have read through the proposed Microsoft settlement and find it completely inadequate. It does not prevent Microsoft from hijacking new technologies by bundling them into its operating system in the future, and it does very little to compensate for Microsoft's abuse of its OS monopoly in the past.

This proposed settlement will hurt innovation and cost consumers money.

I hope that you will take this into account when making a final decision.

Best regards,
Peter Hollingsworth
